

16. Quality Policy

It is the policy of **GARNER OSBORNE CIRCUITS LTD** to manufacture & assemble Printed Circuit Boards and strives to create partnerships with Customers by providing the manufacturing facilities, flexibility and quality that Customers would want from their own production facilities.

Our primary goal is to meet customer's orders and requirements at a cost acceptable to **GARNER OSBORNE** and our customers, leading to a sustainable competitive advantage and a reputation for reliable quality and delivery, such that **GARNER OSBORNE** is acknowledged as the Quality Leader in our chosen markets.

GARNER OSBORNE is committed to achieving and maintaining this standard of excellence using the Quality Management System based upon BS EN 9100:2018 (9001:2015)

The Company's Quality objectives are:

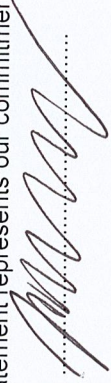

- To fulfil Customers requirements and specifications including legal and regulatory requirements.
- To supply and maintain quality products.
- To provide the right organisation and resources and employ the right people to ensure an effective and efficient operation.

These objectives are in line with corporate long-term strategies. These strategies consider quality improvement a key factor in enhancing long-term business performance and profitability. Quality is seen not as an option but as a business requirement.

To achieve our objectives, it is vital that the Quality System installed is understood and accepted by everyone in the Company - we are all customers, and we must be able to rely on quality from each other.

By striving for Quality in an orderly and consistent way, we shall all be playing our full part in the continuing success of our Company. It is our responsibility to ensure the QA system functions correctly and its effectiveness is maintained through monitoring, control, audit and review.

This statement represents our commitment to the Quality Policy.
