

Garner Osborne Circuits Ltd

July 2022

REACH Statement

In December 2006, the European Union adopted a new regulatory framework concerning the Registration, Evaluation and Authorisation of Chemicals (REACH).

The aim of REACH is to improve the protection of human health and the environment through better and earlier identification of the intrinsic properties of chemical substances introduced into the supply chain.

Under REACH regulations Printed Circuit Boards are designated as "Articles" and are subject to the REACH requirements applicable to "Articles".

From June 2022, REACH regulations place a legal obligation on all EU suppliers to inform their customers whether the "Articles" they supply contain any of the substances described in the REACH Candidate List of substances of Very High Concern in concentrations > 0.1%.

We confirm that the products we supply do not contain Substances of Very High Concern as described in the official list of 'Substances of Very High Concern (SVHC)' published by the European Chemicals Agency (ECHA) in concentrations > 0.1%.

This list may be viewed on the ECHA website under http://echa.europa.eu/chem_data/candidate_list_table_en.asp.

This product information is based on our current knowledge and experience and we cannot accept liability for any factors outside of our control.
